SUNDAY AUGUST 7th WORKSHOP
"Making Friends with Your Inner Critic"
with Pam Hirons, LMHC

Do you:

- Silence yourself?
- Criticize yourself?
- Limit yourself?
- Even STOP yourself?

Would you rather:

- Speak your truth!
- Create positive self talk!
- Tap into your limitless potential!
- Just GO FOR IT!

...then this "Playshop" is for you!!! Come participate in interactive processes to overcome the impact of your inner critic. Pam says "If you come open and willing, you will leave with ideas and strategies that will enable you to be your best self and to do the things you REALLY want to do!"

This class is perfect for continuing students, offering an exploration into our teachings while freely drawing upon the many religions, philosophies, literature, and sciences that directly influenced our Founder, Ernest Holmes. This class guides us through the writings of three of the most important influences in Holmes's development:
Ralph Waldo Emerson, Thomas Troward, and Emma Curtis Hopkins.

This class will give rich and deep insight and a sharper focus of the Science of Mind fundamentals.

Foundations of the Science of Mind, facilitated by
Rev. Karen Wolfson
Thursdays 9/15 - 11/17
\$ 295.00

This is the entry-level class in the study of the Science of Mind. You will be introduced to the basics of the Science of Mind, Meditation, Spiritual Mind Treatment, Visioning and other Universal Spiritual Principles and Practices.

Each week will consist of the exploration of spiritual principles and spiritual practices that support those principles. You will learn to use the creative process as well as powerful and practical tools to "change your thinking, change your life" and you'll experience that adventure with like-minded people from all over the world.
